

ROV Production Technician

Seatronics Vision and Mission

Seatronics are the Marine Technology Specialists. With our solution focused culture, engineering strength and extensive product knowledge, our vision is to remain the leading provider of marine electronics solutions to the global subsea market. We supply specialist subsea solutions pursuing excellence both in engineering capability and customer support. Our continually developing expertise allows us to provide full service capability on demand encompassing rental, sales, service & repair, calibration, personnel and asset management.

Overall Purpose of Role

As a member of the ROV technical team you will ensure that a strong, professional attitude is maintained within the Seatronics ROV team. As ROV Production Technician, you will be required to ensure that the final assembly, test and delivery of the ROV is executed in line with the company's procedures. You will provide occasional technical support to the ROV community and will assist in all areas of ongoing production of a variety of ROV products.

Reports directly to ROV Engineering and Production Supervisor, liaises with Line manager and engineering teams.

Key Responsibilities and Accountabilities

The responsibilities of the postholder will include but not be limited to the following:

- Assembly and final testing and assist with commissioning of the ROV systems and associated equipment prior to delivery.
- Assist in System Integration Testing (SIT) prior to customer Factory Acceptance Testing (FAT) in conjunction with industry regulatory standards.
- Liaise with technical department on special equipment interfacing and assisting with the testing of new / prototype products as and when these requirements are presented.
- Ensure fault finding and interfacing challenges are promptly reported back to the ROV Engineering and Production Supervisor for efficient resolution.
- Submit change order requests to amend work / build instructions when issues are identified.
- Ensure effective document control procedures are executed and followed in line with company QHSE / QMS guidelines.
- Assist with Shipping to customers and suppliers.
- Attendance at demonstrations and trials of ROV systems.
- Willingness to undertake other duties as and when required such as stock take, maintaining tidy work areas, copying, filing etc.
- Assist with purchasing of equipment and spares.
- Assist the Technical Support department where applicable.
- Assist with Product Development where required.

Experience and Qualifications

- HNC or equivalent in a relevant area; Electronics or Mechanical Engineering is necessary.
- Ideally possess mechatronics experience within the subsea sector.
- Good electronic and mechanical systems experience on a wide range of subsea electronic equipment.
- Solid experience of Microsoft Office suite; Word, Excel, PowerPoint and Outlook.
- Basic experience and understanding of projects.

Skills and Knowledge

- Excellent organisational and time management skills.
- Attention to detail with good analytical skills.
- Knowledge of electronic repairs.
- Strong communication skills; e.g. report writing, customer service.

Personal Qualities

- Customer focused with a forward thinking attitude.
- Outgoing team player with a professional approach. Able to communicate at all levels.
- Ability to work to tight deadlines and remain calm under pressure.
- Conscientious and helpful.
- Willingness to learn and participate/provide in-house training.
- Willingness to work flexibly to meet deadlines for upcoming projects.
- Ability to follow instruction.

Work Requirements

- Ensure effective self-management to work in accordance with the company's values, goals and objectives.
- Willingness to maintain Continual Professional Development to ensure your own knowledge base enhances Seatronics' capability and that you comply with the company's policies, processes and principles.
- Maintain integrity by being honest and transparent with staff, clients and suppliers in line with business policies.
- Highlight new technologies or working practices which may benefit the company by way of the Process Improvement Report (PIR) process.
- Actively participate in regular team and company events as required.
- Ensure we focus on being customer centric by developing good relationships with clients and suppliers and providing outstanding levels of service to ensure client needs are met on time, every time.
- Participate in the leadership and commitment of QHSE to ensure there is zero harm to our people, the environment and equipment.
- Take an active role in ensuring the quality of our products and services fully meets customer requirements.
- Ensure you work in line with various areas of compliance, including but not restricted to Customs/Export Control/Import/Anti-Bribery/Quality Assurance (QA).
- Ideally have a clean driving license and the ability to travel to global companies when necessary.
- Ensure you are deemed fit for the role or assignment being undertaken by undertaking medical examinations/tests and/or vaccinations in line with local legislation.
