

## Environment Policy Statement

Reference No: SGPO013

Revision No: 4

### ***Accident Prevention and a Safe Working Environment is our Top Priority***

Seatronics Group is committed to providing a safe and healthy working environment. This is by demonstrating leadership and commitment with a vision of **ZERO** harm.

Seatronics Group works in accordance with the requirements of ISO 45001:2018 Occupational Health and Safety Management System to provide a framework to improve employee safety, reduce workplace risks and create better, safer working conditions.

Seatronics Group shall:

- Ensure Health and Safety systems are provided and maintained, taking into account the continued need to protect personnel, equipment, assets and environment
- Consider all accidents, incidents and occupational illnesses to be preventable
- Promote and maintain a working culture which empowers all personnel to achieve best practice and performance in Health and Safety through management communications and training programs
- Apply applicable laws and regulations and where deficient apply industry best practice
- Monitor health and safety performance by setting objectives and targets with aim of continuous improvement
- Ensure that adequate resources of competent and trained personnel are assigned to the performance of the work

**"Everybody has the authority to delay or stop the job that place themselves or others at risk of being injured and shall ensure appropriate control measures are implemented prior to continuing operations."**

Each individual has a responsibility to take reasonable care for their own health and safety, and for the safety of other people who may be affected by their own acts or omissions. This policy will be reviewed periodically to ensure the future success of Seatronics Group.

Signed:

**Phil Middleton**

**Group Managing Director**
